SUMMARY

Angular Developer with 1+ years of experience in web development and technical support . Skilled in building responsive SPAs using Angular, TypeScript, and REST APIs. Strong in optimizing performance and delivering clean, scalable solutions.

SKILLS

HTML5, CSS3, Bootstrap, JavaScript (ES6+), TypeScript, Angular (v12+), Angular Material, Angular CLI, RxJS, Reactive Forms, REST APIs, Firebase, MS-SQL Server, Git, Github

WORK EXPERIENCE

Technical Support Engineer, Kaizen Secure Voiz Private Limited – Velachery, Chennai   **05/2023 – 07/2024**

- Maintained client-server systems with routine checks, updates, and backups to ensure data integrity.
- Resolved software issues with minimal downtime, improving performance through collaboration.
- Documented troubleshooting steps and support procedures, boosting team efficiency and technical accuracy.

Angular Intern (Web Development), Fabevy Technology – Tenkasi   **09/2022 – 04/2023**

- Developed responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Built a personal portfolio website using Angular and made it fully responsive across devices.

PROJECT

Firebase Authentication System
- Built a secure, responsive authentication system with user signup/login and role-based access control.
- Integrated Firebase Firestore for real-time data and session management.

Digit & Voice Match Validator
- Developed an Angular-based UI to record user voice input and generate a random digit for verification.
- Integrated API to send voice and digit data for analysis and display real-time match results on the UI.

EDUCATION

M. Sc, Computer Science | Arignar Anna Government Arts College – Villupuram | 80%   **2019 – 2021**

B. Sc, Computer Science | SSBS Tamil Arts and Science College – Mailam | 72%   **2016 – 2019**

CERTIFICATION

- Front-End Development using Angular – Fabevy Technology, Chennai.
